

Corimpex Srl, to run its business, places at the center of its activities the following 3 pillars:

- the **TEAM** and their **SAFETY** as an essential resource for his development and cultural growth,
- the **CUSTOMERS** as a resource for the business development,
- the **ENVIRONMENT** as a common resource to be safeguarded.

Therefore, the company management has set the following guidelines for the implementation of its Policy.

Corimpex Srl, to achieve this goal, has identified the following aspects as central elements:

- Adopts an approach based on context analysis in order to identify the needs of stakeholders and on risk analysis to properly assess them;
- Correctly interpret the customer's needs by supporting him with his own technical knowledge;
- Transforming the customer's explicit and implicit needs into technical specifications which must become a guide and a point of reference during all business processes;
- Evaluate from time to time the changing needs of customers in order to continuously improve their actions;
- Promote the appropriate **IMPROVEMENT ACTIONS** and monitor the results;
- Stay constantly updated on the evolution of innovative technical solutions and the dynamics of market in order to seize all new opportunities;
- Empower staff on the quality of the product and service provided to the customer as the contribution of the staff is essential for achieving our goals;
- Prevent pollution and operate in compliance with established internal environmental regulations and requirements by continuously improving their performance;
- Preventing accidents at work and the development of occupational diseases;

- Constantly improve environmental efficiency and safety by applying the best technologies available when economically feasible;
- Maintain continuous compliance with the United Nations conventions on the rights of the child and those aimed at eliminating any form of discrimination;
- To prevent any form of discrimination both in the hiring and operational phases and to monitor that suppliers and sub-suppliers or contractors also abide by these ethical rules;
- Provide information on company risks and disseminate it to all workers;
- Deal quickly, effectively and diligently with emerging needs in the course of working activities;
- Comply with all applicable laws and regulations regarding the product, safety and the environment;
- Monitor and keep under constant control all company processes and its suppliers;
- Provide a reference framework for defining the annual objectives and targets for all company processes and reported in the annual program;
- Obtain and maintain the system certification in compliance with the reference standard **UNI EN ISO 9001**, issued by an accredited institute that proves, with independent judgment, the validity of the management system;
- Review this policy so that it is appropriate to the context and purposes of the organization e represent a reference framework for quality objectives;
- Detect and examine non-conformities to improve, with the implementation of appropriate corrective actions quality of the product and service provided;
- Respect the laws in force and the contractual regulations.

In order to achieve these pre-established objectives, **CORIMPEX Srl** will make available all the resources necessary for staff training, development and growth of a Management System, in compliance with the reference regulations and specifications.
